As children's photography specialists, Border Studios understand the importance of Children's safety and staying up-to-date with current guidelines and recommendations in the child care and photography industries alike.

We are continually reviewing and updating our policies and procedures to make sure we are aligned with privacy and safety expectations of Child Care Centres and families alike. We strive to be a model for best practice within children's photography.

See our list below of some of the ways Border Studios are working to safeguard children's images securely, and to protect their privacy.

# Child Safety

## WHAT WE'RE DOING...

- As of 2026 Border Studios will ONLY photograph children who's parent or guardian has given specific consent to us to photograph their child.
- All photography and key administrative staff hold current Blue Cards.
- All image storage devices are owned and maintained by Border Studios.
- Images and information are stored using state of the art encrypted cloud storage network. Access to images is limited to essential staff, and access of every file is tracked by individual user, timestamped and recorded.
- In house editing ONLY - We do not outsource our image editing to third party companies, overseas editing teams or AI editors.
- Careful and considered management of AI editing - We strictly limit the use of cloud based and AI editing tools. Where these tools are (very rarely) required, the use is strictly controlled and limited to upper management only.
- Password protected ordering pages, and individually password protected images prevent unauthorised access of files.

"We had such a great experience with this photography company! They recently took photos of my kids and did an outstanding job, the shots were beautiful, natural, and really captured their personalities. Rae in customer service was especially lovely to deal with. She was warm, professional, and made the whole process so easy from start to finish. I had a quick question...Rae responded straight away and sorted it out without any fuss — such a rare level of service these days."

~Monica (Happy Customer) 2025

"I've been using this incredible photo company within my childcare services for several years now, and they never disappoint! Their ability to engage and interact with the children is nothing short of magical. They bring so much energy, fun props, and a genuine warmth that gets the children giggling and smiling naturally. No forced poses here!"

~Burleigh Sandpipers 2025

"Border studios have been fantastic to deal with for the last 5 years. The photos of our staff and children are exceptional. High quality customer service and great communication.

Highly recommend!"

~ Goodstart Hawthorne 2025

"Childcare photos from Border Studios have always been amazing the last couple of years 😊  
Very grateful for the easy service of ordering online... Speedy reply via email and very friendly responses. Could not recommend them enough

🙌 thank you 😊"

# KINDERGARTEN AND PRESCHOOL Graduation PHOTOS

Celebrate the transition to “Big School” with Border Studios Graduation Photos

Families will have the option to purchase Graduation Photos as digital files, individual prints or in packages similar to our regular child care class photos.

Centres will receive lightly watermarked copies of the Graduation photos for centre use, and the option to purchase Graduation Certificates or prints to gift to children at Graduation.

For more information or to book your Graduation photos for 2026, email [admin@borderstudios.com.au](mailto:admin@borderstudios.com.au)
